Conflict Minerals Declarations

Juli 2016 REV 2

Ref: Inquiries on - Conflict Metals or Dodd-Frank Wall Street Reform and Consumer Protection Act in 2010: Section 1502 - Conflict Minerals.

Peters Rubber & Plastics BV undertakes due diligence to attempt to determine if 'conflict minerals' are used in our products. Conflict minerals are described as Gold (Au), Tantalum (Ta), Tungsten (W) and Tin (Sn) that are sourced from the Democratic Republic of Congo or adjoining countries from mines controlled by non-governmental military groups.

As part of the Peters Rubber & Plastics process for the implementation of new suppliers, our sustainability questionnaires requests direct confirmation that materials we purchase do not contain conflict minerals and a self-declaration is also required that the full supply chain process of the suppliers has been examined to confirm this.

In addition, we have also reviewed our existing supply base, and in particular suppliers of materials that contain the above named minerals. We can confirm that there is no indication that any products manufactured for Peters Rubber & Plastics BV contain conflict minerals.
